EDUCATION

Bachelor of Technology in Computer Science and Engineering

Expected May 2028

Vellore Institute of Technology — Cumulative GPA: **8.62**

TECHNICAL SKILLS

Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP)

Languages: C++, Java, Python, C, Structured Query Language (SQL)

Technologies: React.js, PostgreSQL, MongoDB, Git

PROJECTS

CASHLENS

- Engineered an AI-powered finance platform with OCR receipt scanning, reducing manual expense entry by 80%.
- Developed 15+ reusable React components for budgeting, transactions, and savings to improve user experience.
- Architected a PostgreSQL database with 6+ entities and RLS, ensuring 100% user data isolation.
- Integrated Tesseract.js OCR, AI spending predictions, offline sync, and a chatbot, improving transaction capture by 60%.

Nirantar Health Card

- Delivered a React, Node.js, and PostgreSQL healthcare platform, accelerating 4 core workflows by 50%.
- Built 12+ responsive React components and 55+ REST APIs for patient, appointment, and lab management.
- Optimized a PostgreSQL schema with 6+ entities and strategic indexing, eliminating 100% of duplicate booking errors.
- Implemented QR-based record sharing with JWT authorization across 4 user roles, strengthening secure access and auditability.

Rent Relief Navigator

- Developed an AI-powered rental intelligence platform that reduced the property evaluation time from 10–15 hours to less than 10 seconds.
- Engineered a scam detection system to identify rental frauds that cause losses of *Rs.35,000–Rs.3.5 lakh* per victim.
- Designed a cost analysis engine that identified 30–50% of hidden rental expenses, improving financial planning accuracy.
- Built a scalable solution capable of expanding from 4 metro cities to 50+ cities, targeting *Rs.50,000+* crore in annual rental fraud prevention.

ACHIEVEMENTS

- Organized CODE GARUDA 4.0 and VAINATEYA 3.0 hackathons at VIT Bhopal.
- Led project conceptualization and technical idea submission at Bharat Academix CodeQuest.
- Earned the Oracle Certified Foundations Associate certification, validating core database and cloud fundamentals.
- Completed the MongoDB Database Administrator Learning Path (Self-Managed), gaining expertise in database administration and performance optimization.

LEADERSHIP

- Directed club initiatives as Microsoft Club Content Team Lead (2025–Present), driving technical publications and content strategy that boosted engagement.
